18 August 2005

Mr. William Perciballi  
ArmorWorks Inc.  
7306 South Hart Avenue  
Tempe, AZ 85283

Subj: Waiver of First Article Test for Interim Enhanced Small Arms Protective Inserts  
(ESAPI) under contracts M67854-04-D-3005 and M67854-04-D-3118

Ref: FAR 52.209-4 First Article Approval --Government Testing-- Alternate 1

Dear Mr. Perciballi:

In accordance with FAR 52.209-4(e)(2)(i), the Government hereby waives the requirement for first article approval of Interim ESAPI (Morgan System) under contracts M67854-04-D-3005 and M67854-04-D-3118. This waiver is based on results of a First Article Test (FAT) conducted at H.P. White Laboratories under contract SP0100-03-D-4153 (Lot # 650-MP). Testing revealed that this Interim ESAPI demonstrates the capability to meet the performance requirements for ESAPI under contracts M67854-04-D 3005 and 3118.

Production is hereby authorized. All production quantities submitted shall be produced using the same procedures that resulted in the manufacture of an acceptable first article under contract SP0100-03-D-4153; this includes using the same raw material and component parts.

Approval of the first article does not relieve you from meeting all requirements of the contract and the specifications.

Please address any questions or concerns that you have regarding this letter to the undersigned at 703-432-3267.

Sincerely,

S. LEIGH D'LUGOS  
Contracting Officer
