MEMORANDUM FOR COEI (J. Dempsey)

SUBJECT: Waiver of First Article, Interim Heavy ESPI
 ArmorWorks, LLC, SP0100-03-D-4153

Request to ship System Configuration Alanx/T-Flex has been evaluated and the following is offered:

- a. System passed First Article testing and production was authorized under Marine Corp contract M67854-04-D-3005, 3 August 2005.
- b. There has not been a break in production and lots are successfully meeting the ballistic requirements of CO/PD -04-19A.

Based on the above, request to ship configuration Alanx/T-Flex against SP0100-03-D-4153 is authorized. Lot testing is required. All lots produced and submitted under SP0100-03-D-4153 must be identical to the current Interim ESAPI approved by and provided to the Marine Corp under M67854-04-D-3005 (Lot M0053-AP).
