Dear Mr. Perciballi:

The ArmorWorks, LLC's submittal of First Article ESBI, Design Code #SP00181-MP2S1, was tested for ballistic requirements at HP White on 14 June 2007 and found acceptable.

All production quantities submitted after approval of the First Article shall be produced using the same procedures that resulted in the manufacture of an acceptable First Article. This includes using the same raw materials and component parts.

Production is authorized.
